SUMMARY

I am a driven Full-Stack Web Developer passionate about building robust applications using the MERN stack. I excel in translating complex designs into high-performance user interfaces, leveraging tools like Tailwind CSS and Three.js. My expertise includes architecting full D2C platforms and utilizing generative AI for content creation, focusing on scalable code and visually stunning digital experiences

EXPERIENCE

Full-Stack Developer

Self-employed

Full-Stack Developer specializing in MERN stack applications

- Completed an intensive, hands-on MERN stack development program focused on building real-world web applications and optimizing UI performance
- Engineered dynamic front-end interfaces utilizing React.js and Tailwind CSS, while building scalable back-end architectures with Node.js and MongoDB
- Collaborated on end-to-end project lifecycles, taking initial Figma wireframes through to functional, deployed digital products with secure payment routing

EDUCATION

Certification, MERN Stack Developer

RICR, Bhopal, Madhya Pradesh

Bhopal, Madhya Pradesh

Diploma, Computer Science

Patel College, Bhopal, Madhya Pradesh

Bhopal, Madhya Pradesh

2022 - 2025

KEY ACHIEVEMENTS

Winning Project at Hackathon

Engineered an innovative diagnostic testing web application that won at a hackathon and received commendation for its exceptional user experience

SKILLS

Gmail, GitHub, Figma, Tailwind, React, HTML, JavaScript, ES6, Node.js, Express.js, MongoDB, Wireframing, Animation, Payment Gateways, Modular Design, CSS, REST, Redux, JWT, Mongoose, API Testing, Cloud Hosting, My SQL

PROJECTS

Diagnostiq

Diagnostiq Diagnostic Testing System

- Engineered an innovative diagnostic testing web application under strict time constraints, earning a win at the hackathon
- Designed and implemented an intuitive, accessible user interface that received special commendation from the judging panel for exceptional overall user experience

'Crazy Fits' & D2C SaaS Platform

'CrazyFits' & D2C SaaS Platform

- Architected and launched modern digital storefronts for independent brands, including a fashion outlet ('Crazy Fits') and a specialized automotive/anime collectibles business
- Integrated seamless Razorpay payment gateways to facilitate secure user transactions and streamline the checkout flow

Savora

Savora Premium Food Delivery Portal

- Built a minimalist, high-end food delivery web application from the ground up, prioritizing a clean user journey
- Developed modular React components and implemented custom CSS themes to achieve a sophisticated, brand-aligned aesthetic

PROJECTS

Student Management System

Student Management System

- Developed a full-stack educational administration portal to streamline student records, enrollment processes, and academic tracking
- Implemented secure RESTful APIs with Node.js and Express, utilizing MongoDB for efficient data storage and React for a dynamic, responsive frontend
